

## Solar Charging Kits

### GP-RV 50 / 80 / 95 / 125

- Maintenance free designed to provide decades of uninterrupted power
- 5 year warranty
- Easy to install, flush mountable design
- Battery voltage digital display
- Digital display of power output from the solar panel (amps)
- Expandible (allows for additional solar with the same regulator)

### Why choose a Go Power! System

A Go Power!<sup>™</sup> Solar Charging Kit keeps your batteries charged and healthy. Full batteries give you the freedom to run lights, furnaces, fans and more DC appliances without the worry of running out of power.

Watch TV, DVDs, play video games - with healthy batteries you don't have to give up the comforts you are used to wherever you choose to stay.

The rugged durability of our solar panels guarantee you'll generate solar power everywhere you go. All the components you need to set up your solar charging system are included in every Go Power!<sup>™</sup> Solar Charging Kit.

Solar panels are mounted securely, and without worry of leaks, with the provided mounting hardware.

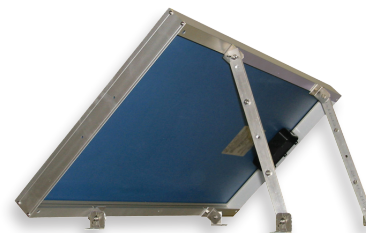

Kits come with our own premium Go Power!<sup>™</sup> 25 amp digital regulator. The GP-PWM-25 digital regulator monitors your system to prevent over charging your batteries. As well, it delivers vital information where and when you need it.

GP-PWM-25
